

STRATEGIC PLAN 2018-2021

Vision: Mental health consumers and carers are included in, and influence, all matters that affect them.

Mission: Using combined mental health consumer and carer leadership, we listen, learn, influence and advocate as a recognised respected and independent voice in mental health.

Our domains:

Influencing reforms

- Have a leadership role to inform and lead mental health reforms as expert advisors; by representing and ensuring the views of consumers and carers are routinely and automatically sought, heard and acted upon.

By having effective and intentional working relationships that utilise our expertise and knowledge; are collaborative; wherever possible are co-designed and co-produced; and deliver outcomes.

Active members

- To ensure members are accountable to the work of the NMHCCF, to each other, to our constituency and to the reporting body/s we represent.

By revising and developing our current structures and processes.

Public profile

- To raise our profile, influence, and advocacy efforts within the mental health sector, and to increase support within and from our constituencies.

By developing and implementing a public marketing/ promotional and communications strategy that raises awareness and profile of the NMHCCF.

Supportive structures and processes

- To have streamlined organisational structures and processes that ensure effective, efficient and timely use of our resources.

By reviewing and further developing our current methods.
